RD really should be responding to this, as they have the lead for this effort.

Subject: 2nd letter to registrants

I'm trying to characterize to the press office what the 2nd letter will do. Will it:

- Actually require label changes? For a subset of the neonics?
- Anne, mentioned but I forget – What will need to happen in the Fall to give it teeth?

Anne, please send a draft of the press release so I can peek (w/o sharing).

Linda
